## EU Brief III

### Per Undén

The EU briefs were introduced in the original proposal to reach out to policy makers in Bruxelles and linked to the European Commission and other bodies to who we can pass on messages from UERRA. Originally they were tasked with KNMI but there were no clear ideas how to implement these briefs from KNMI and the Coordinator at SMHI took over the responsibility. Two of the briefs have eventually been executed in the form of sponsored articles in Magazines and Web sites addressing poilicy makers and the European Parliament. The effect might have been limited but those Magazines do contain a lot of interesting material and are distributed widely.

The matter of the third such EU brief was discussed with the Project Officer and Evaluator at the Review meetin in June 2017 and the relevance of carrying out the task was somewhat downgraded. In the subsequent review report in September it was concluded that the EU briefs had not been so successfull and the final EU brief had outplayed its role. It has been agreed that no action is needed for this EU brief.
