ESAB meetings

Per Undén

UERRA has an External Scientific Advisory Board that was assigned to guide and advice the Project and leaning on their expertise in Reanalysis and Climate services or related areas.

UERRA has benefited from being able to attract advisors from or formerly from ECMWF with their extensive experience of global reanalyses (Adrian Simmons for most meetings and Sakari Uppala for one of the meetings). To address the links with users and in particular with EU bodies, EEA has been the other party (Blaz Kurnik) for the Advisory Board. We tried to a third body, DG CLIMA or related bodies in the EU but we failed to eventually to find the time to participate from there, in spite of several efforts. In the end, in September 2016 we did engage a person get one official (Mugurel-George Paunescu) who attended the Brussels C3S Uncertainty Workshop but did not see a clear role as advisor for the future.

The ESAB meetings were always coordinated and colocated with the UERRA General Assemblies and on most occasions with a special session in the evening involving the Project Officer, Evaluator and the UERRA Management Support Team (Coordinator and WP leaders). The ESAB members also made a summary presentation or talk at the very end of the GA:s to give views and advice.

The meetings were:

[UERRA GA1 , Exeter 26-27 March 2015](#) Adrian Simmons and Blaz Kurnik,

[UERRA GA2 in Tortosa 27-28 January 2015](#); Adrian Simmons and Blaz Kurnik

[UERRA GA3 in Toulouse 1-3 February 2016](#); Sakari Uppala and Blaz Kurnik

[UERRA GA4 in Reading 21-23 November 2016](#); Adrian Simmons and Blaz Kurnik

[UERRA GA5 in Tarragona 28-29 November 2017](#); Adrian Simmons
