

# UERRA Workpackage 8: User Feedback

KNMI – DWD

Gé Verver, Andrea Kaiser-Weiss, ....

- WS plan & Initial review of user requirements (M12)
- User Workshop I (M24)
- Concluding User Workshop (M42)
- User Guidance (M48)

# Previous user feedback

- **EURO4M** Deliverable D3.4. *Meta user requirement document for the user needs across the range of user communities*
- **Core Climax** Deliverable D5.52 *Reanalyses and user needs with respect to Climate Change Services;*
- **ClipC** Deliverable D2.1 *User requirements, part 1 Strategies for user consultation and engagement and user requirements: Synthesis from past efforts*
- **UERRA** D 3.1 *Report workshop on the definition of a common evaluation procedure; D 3.2 Table common evaluation procedures*

# User Workshops: 3<sup>rd</sup>-party evaluation of re-analyses products

## Potential participants:

Climate Scientist

Impact Researchers

Intermediaries

Societal end users

- ☀ *Active* users known by partners in UERRA & other projects
- ☀ E.g. European Met. services
- ☀ Willing to perform some preparatory work

# User Workshops: 3<sup>rd</sup>-party evaluation of re-analyses products

- Assess the value of re-analyses data for specific applications
- Evaluation in 'user space'
- Practical experience in accessing and using the data
- Provide feedback to data providers
- Interpret and use uncertainty information
- Provide input for a user guidance document
- Learning experience for both users and providers

# Practical issues:

- Re-analyses data and tools provided to the participants to prepare for the workshop
- Provision of documentation on available data and tools
- Workshop connected to an existing meeting?
  - ECAM (7-11 September 2015, Sofia, Bulgaria)?
  - UERRA GA Jan/Feb 2016 ?
  - Other options?
- Length of the meeting: 1 or 2 days
- Find 10-20 (?) active users willing to participate
- Active participation of data providers (UERRA partners)
- Budget available to support participants (?)
